This Release

Description of Differences Between Q1/2007 and Q2/2007 Release

Main Enhancements:

- N18 Ennis. New Bypass - mix of dual carriageway and single dig roads.
- In cases where the BUA name was not present on a link within the BUA at either admin level 3 or 4, then the name of the BUA was applied at admin level 4 to those links. This will ensure that street names are linked to the BUA name, hence improving destination selection and geocoding capabilities. Previously, the townland name (a small parcel of land) was applied to admin level 4 within BUA polygons, which meant that not all links were coded with the name of the BUA at the lowest admin level. The townland name will be retained in the form of a vanity street name.

POI additions/enhancements:

- New POI Categories added: ATM, Cemetery, Place of worship and Post office.
- Auto Dealer New Implementations: Hyundai
